Technologie 3 taillants

hooster PLUS

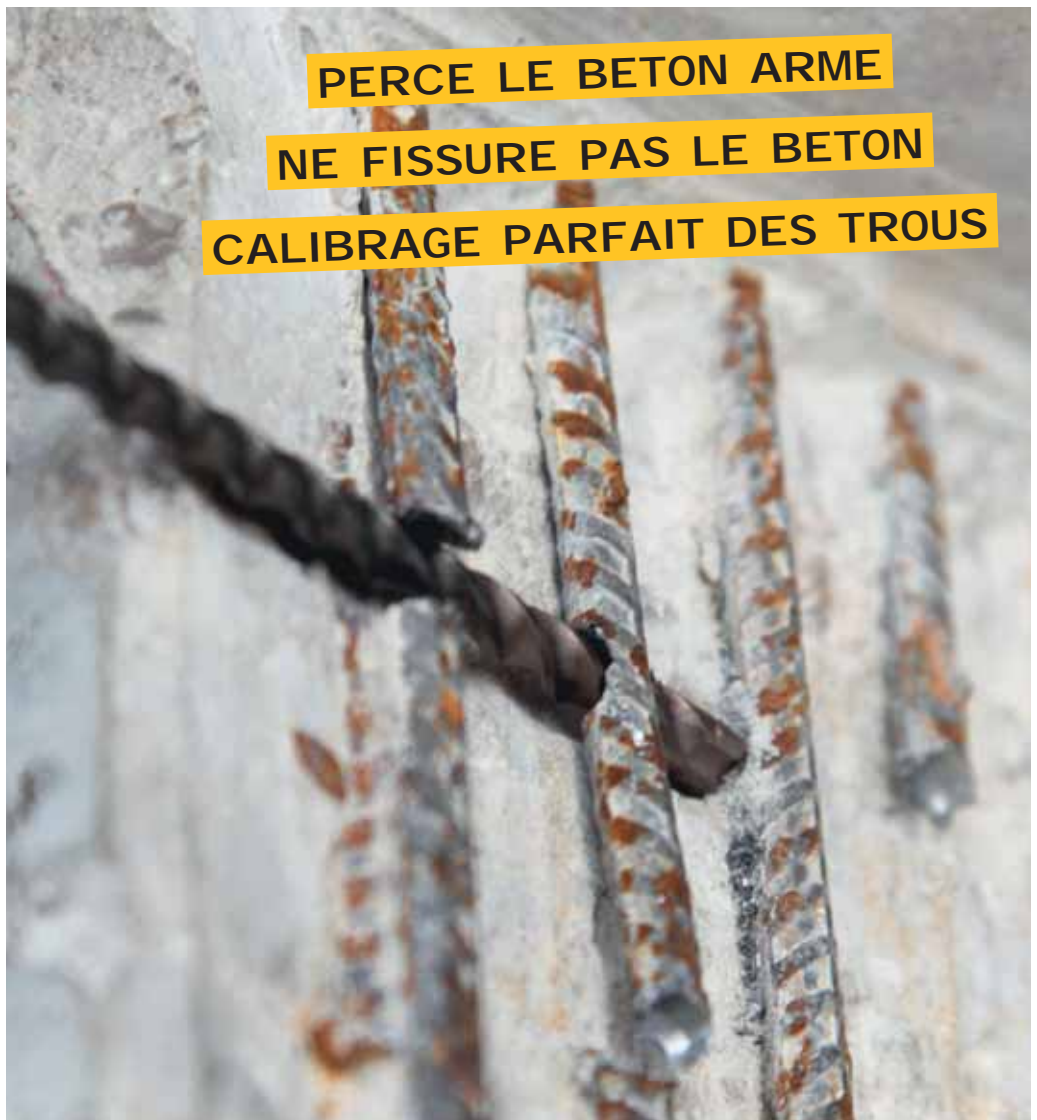

Foret Marteau Compatible SDS-plus

Description

- Plaquette carbure monobloc avec pointe auto-centrante.
- Angle de plaquette 135°.
- 3 points de contacts simultanés.
- Double taillage : demi-ronde et carrée.
- Attachement compatible SDS-plus.

Avantages

- La plaquette 3 taillants monobloc est une solution tous bétons.
- La pointe auto-centrante apporte de la précision lors du démarrage du trou.
- La géométrie de la tête garantie un trou parfaitement rond et calibré.
- L'hélice carrée accélère la remontée de la poussière et augmente la durée de vie du foret.
